## THE CHALLENGE – THE OPPORTUNITY:

Each day the “thumbscrews get turned a little more”. Chinese Christians faced continually increasing government pressure – new laws – new interpretations – new zeal from those seeking to eliminate the Name of Jesus.

Pastors are increasingly imprisoned and churches shutdown.

These actions do not deter Jesus’ followers. For years when we were able to visit China, one of their main expectations was increased persecution.

Surveillance...  
Restrictions...  
Reporting...  
Imprisonment...

Each day, a more and  
more restrictions

Since 2009,  
19.6 million people  
have been offered an  
opportunity to meet  
Jesus with a Gospel  
of John

## HOW WE WORK:

God, in the Old Testament provided Daniel, a righteous man, to serve an evil emperor. Today in China there are a number of “Daniels” – godly men whom God has placed inside the government.

They have the authority to legally print Gospels of John – and then through various networks people from China are invited to meet Jesus. **For their own safety, we keep their identities secret so they are able to continue to serve God without government interference.**

Today we raise support both inside and outside China.

## STORY:

“My job is to do architectural decoration. However, my boss embezzled more than 60,000 yuan in wages from me and other workers. In order to get unpaid wages back, I and other workers went through a legal process and reported to the police in accordance with labor laws. But in the process of getting my salary back, I suddenly felt that this boss is really poor inside. He has no real peace in his heart, so I wanted to take this opportunity to share The Gospel with him. My family and people around me thought I was crazy to share The Good News with this bad person, but I told them, in fact, we are all sinners, we all need God's salvation and mercy, and we are no better than him. Then I took the Gospel of John booklet with me and prepared to give it to my boss.

After meeting my boss, I told him that because we have prepared to file a lawsuit, I knew that maybe from today, you might not hire me again, so it would be difficult for me to see you again in the future. At last chance, I would like to introduce the Lord Jesus to you. This is a Gospel of John, which is a part of the Bible. Thank the Lord, the boss accepted the Gospel of John and promised to read it carefully. In the end, he paid all the wages back and invited me to continue to work for the company. I am very grateful for God's work!
